---

Dear Council Members,

I am frankly very disheartened by such an appalling vote even coming before the council.

The borders set forth by the international body of the League of Nations clearly bequeathed this area so it is absolutely legal and not considered occupation.

Many offers to split the land have been accepted by all Jewish governments running from trans Jordan to the partition plan to Oslo. They have been returned in kind by being attacked on all fronts solely for their intended destruction. Sadly with no opposite peace partner Israel has been forced to continue the status quo among constant suicide bombs, rocket attacks and knife intifadas aimed at the Jewish residents after genocidal incitement by the PA and Hamas as well as outside bodies.

Barring Jews from running businesses in land they have lived on for millennia in false hopes that this is somehow just, is not only a fallacy but also a disparagement to human rights.

I respectfully oppose this resolution.

The BDS movement is contradictory to attaining peace

Their goal is only to divide people who have found a way to respectfully live together in a war zone and to tear apart the fabric of humanity and economic flourishment that nourishes the West Bank economy, pressuring the Palestinian population to only become more dependent on international aid.

Pointedly regarding HP, they have solely done more for the Palestinians on the ground by their constant volunteer work that I have been witness to then any such resolution can dream to destroy.

Sincerely,
Diana Novik
